Narrative: At 1730 the fire was reported by a commercial aircraft (Warbelows) to Fairbanks Area Forestry who then relayed the information to UYT Dispatch. The fire was approximately 1/4 acre in size, smoldering and putting off white smoke. The fire plotted in a modified management option area however, due to the close proximity to a full management option area and possible structures it was determined that action needed to be taken.

At 1757 smokejumper aircraft J-17 with one load of smokejumpers departed LADD Field en route to the fire to determine it's exact location, size and nature. J-17 arrived over the fire at 1831 and reported the fire to be burning on the north bank of the Yukon River at the location of a cabin. The fire was burning in white spruce and brush and it was determined that action needed to be taken. At 1915 J-17 delivered 8 smokejumpers to the fire. The fire was one acre in size and burning in white spruce and brush.

Unstaffed - AFS

GY4W

Lat: 64:29:43	Status: U/U	Acres: 26,639.0	Option: LIMITED
